OUR APPROACH TO SOURCING

Authenticity and documented origin. Genuine branded products, authorized supply channels and commercial invoices are central to our purchasing review.

Transparent sales channels. We discuss marketplace permissions, resale policies and applicable brand guidelines before pursuing an order.

Clearly agreed commercial terms. Pricing, order minimums, payment terms and shipping arrangements are discussed directly before an order is confirmed.

START A WHOLESALE CONVERSATION

Send your company introduction, brands represented, catalog or price list, order minimums and wholesale account requirements to our business email. Each product opportunity is evaluated individually.
